Note: Final scores and results are based on representations made by the applicant in the application materials. Changes to the project scope, specifically items such as financing plan or leveraging source will cause the application to be rescored. If the recalculated score is less than the total point score of the lower ranking score project in the sort order in which the project competed, then the project may be excluded from the AHMP list and LAHD may select the next highest scoring development of comparable characteristics to apply to the available leveraging source (Sec 8.12)
